

# ST. PATS TAKE TROUNCING FROM MACLEOD 7 TO 1

MacLeod Juniors won easily over the Lethbridge St. Pats Thursday night last at the Arena when they engaged in a return exhibition hockey match. The visitors from the Jubilee City won by a score of 7-1, Pinchak tallying the only goal for Lethbridge. MacLeod scored four of the visitors' seven. The boys from the west displayed some nifty hockey, were fast on their blades and could stick handle to perfection. The game was refereed by Bob Watson.

Line-up:  
MacLeod—Swinerton, goal; Hamilton, Lambert, defense; McLeod, Graham, Adams, Smith, forwards; Graham, Watchorn, subs.  
St. Pats — L. Bruchet, goal; Bruchet, Tiller, defense; E. Bruchet, Pinchak, Anderson, forwards; Lawford, McGillis, subs.

They may reduce the size of paper money, but the stuff will make you feel just as big.

## TENDERS WANTED

The Trustees of Olsen Creek S. D. No. 1521, offer For Sale or Lease by Tender, the Old School Site of 2 Acres on the N. W. 1/4, 10-9-22, 24th. Sealed Tenders will be received by the undersigned up to 12 o'clock noon of Saturday, February 16th. The highest or any Tender not necessarily accepted.

R. J. E. Gardiner,  
Secretary-Treasurer,  
50-21 Macleod.

# ALBERTA LEGISLATURE OPENING AT EDMONTON—SPEECH FROM THE THRONE DOESN'T MAKE ANY IMPORTANT ANNOUNCEMENT BUT IS LARGE REVIEW OF DEVELOPMENTS IN THE PROVINCE DURING THE PAST YEAR

Edmonton, Jan. 31.—Despite a temperature hovering around forty below zero, the third session of the sixth legislature of the Province of Alberta opened with all its usual pomp and ceremony this afternoon and hundreds braved the cold to throng the corridors and public galleries of the legislative buildings to witness the ceremony.

There was practically a full attendance of the members. Geo. MacLaughlin, of Clyde, U. F. A. member for Pembina, being absent through illness.

The entrance of His Honor Lt. Governor Wm. Erbert, escorted by a bodyguard of honor from the C. O. T. C. of the University of Alberta was the most spectacular part of the ceremony, while business included the selection of members of the seven standing committees of the House and the introduction of bills, following which the House adjourned until 3 p. m. Friday.

Speech From Throne  
Mr. Speaker and Members of the Legislative Assembly:  
It is with pleasure that I welcome you to the third session of the sixth legislative assembly of the province of Alberta.

The people of this province have shared the anxiety of the peoples of the empire during the recent serious illness of His Majesty King George the Fifth. They rejoice at the progress he has made towards recovery and earnestly trust that he will soon be restored to health and strength.

It is very gratifying to note the steady improvement in economic conditions throughout the province generally. The demand for labor has exceeded that of any previous year, while there has been a substantial development along industrial lines. The present indications are such as to warrant a confident belief in the continuation of sound and profitable expansion of industrial and mercantile undertakings, accompanied by an improvement in subsidiary business, trades and professions.

Agriculture  
Notwithstanding the serious damage occasioned by frost and the lower price level prevailing for our principal agricultural product, the produce of the farm for the past year is estimated to yield a sum of \$30,000,000 in excess of the average return for the past decade. The province's reputation as a country where high standard grain and stock can be produced has been enhanced by the continued success of Alberta exhibitors at the Toronto Royal Show and the Chicago International Show. The encouragement of the use of road seed, of the improvement in methods of cultivation and of the adoption of adequate methods of dealing with noxious weeds is being actively promoted by my government.

Coal Mining  
The coal mining industry of the province continues to make substantial progress, the production of coal in 1928 exceeding that of any previous year. The endeavour to obtain the Ontario market for Alberta coal is now in the second of the three years during which coal may be moved east at the special rate. Last year initial difficulties were encountered which impeded the movement, and it was found that the time for shipments at the special rate was insufficient. With the extension of the shipping period and the removal of the first difficulties encountered, it is to be hoped that the efforts of the industry will be successful in winning and keeping a market in Ontario for Alberta coal.

Oil  
The development of the oil fields of the province indicates that this important activity has passed the experimental stage and is well on the way to becoming an established industry.

Old Age Pensions  
In accordance with the intention given to this house during the last session, my ministers have enquired and considered the needs of the province in the matter of Old Age Pensions, as well as the problems involved in framing and financing a scheme suited to the needs and circumstances of the province and in conformity with the Old Age Pensions Act of the Dominion. A bill for the purpose of providing Old Age Pensions will be brought before you for your consideration.

Northern Railways  
As a result of negotiations conducted by my ministers since the last session, an agreement has been arrived at with the Canadian Pacific Railway company whereby that company and the Canadian National Railways may become joint purchasers of the railways now operated by the government of the province. This agreement is conditional upon its being ratified by this house, the parliament of Canada, and the shareholders of the Canadian Pacific Railway company. Details of the agreement will be laid before you for your consideration, together with the necessary legislation providing for its ratification and execution.

Natural Resources  
During the year negotiations for the transfer to the province of its natural resources were continued by my ministers and as a result new proposals have been made by the government of Canada. These proposals will be submitted to you in detail at an early date for your consideration.

Land Assessment  
With a view to securing greater uniformity and fairness in the assessment of land throughout the

province, it is proposed to provide for the appointment of a board which will have general control over assessments, will hear appeals, and will determine the rate assessment for provincial purposes. A bill for this purpose will be submitted for your consideration.

Highways  
Substantial progress was made during the year in carrying forward the provincial highway programme. At the close of the year gravel surfacing has been completed on approximately six hundred miles, while an additional six hundred miles had been constructed to standard grade. It is the opinion of my ministers that the growing highway needs of the province make necessary a revision of the existing classification of roads and highways and a bill will be submitted for your consideration providing for such reclassification. You will also be asked to make provision for an increased programme of highway construction for the current year, and, for the purpose of meeting the increased expenditure required for such a program, you will be asked to consider a bill to increase the tax on the consumption of gasoline.

Public Health  
The public health of the community continues to receive the most careful attention of my ministers, and amongst other activities it is proposed to supplement remedial measures by preventive and safeguarding methods, by making provision by which district health units may be established. A bill to amend the Public Health Act, containing the provisions necessary for the carrying out of these proposals, will be placed before you. The report of the commission appointed by my government to enquire into the administration of the mental institutions of the province will be submitted at an early date. You will be asked to make provision for the expansion of these institutions as well as for increased hospitalization facilities generally.

New School Law  
A bill for the purpose of amending and consolidating the school law of the province will be submitted for your consideration. Included in this bill are a number of proposals designed to improve the educational system of the province, particularly in the rural areas.

Telephones  
It is with particular satisfaction that I refer to the progress made by the Alberta Government Telephones. As a result of the operation of this utility, sufficient revenue was earned during the past year to make it unnecessary to have recourse to the subvention provided by statute, while full provision has been made for depreciation and maintenance reserve.

Town Planning  
The improvement in general conditions, and the consequent development of the province, make probable the institution of many new urban centres and the substantial expansion of the centres now existing. There is a general realization of the necessity for the orderly, convenient and comely development of all such centres and for the development of the province generally in such a manner as to preserve its natural beauty. A bill will be submitted containing provisions for this purpose, framed according to modern practice and ideals.

Research  
Under the authority conferred by the Natural Resources Research Act passed at the last session of this house, arrangements are being made by my ministers for survey work to be carried out this year, which it is hoped will considerably advance the development of the northern part of the province. This programme will involve more intensive research into the problems presented by the bituminous sands, the determination of the oil resources, soil, timber and mineral surveys, with a special survey into the water supply in certain districts adjacent to Peace River.

Joint Stock Companies  
Realizing the inadequacy of the Companies Act of this province to its commercial and industrial needs, my ministers, for some time past, have had under preparation a complete revision of the law affecting joint stock companies. A bill designed to meet present-day requirements will be submitted for your consideration.

A number of measures will be brought before you dealing with matters of general importance, and also for the purpose of amending existing statutes. Amongst them will be a bill to amend the Vehicles and Highway Traffic Act, providing for the registration and licensing of all drivers of motor vehicles.

The annual reports of the various departments of the government will be presented to the house in due course. The public accounts of the last fiscal year, and the estimates for expenditure for the current fiscal year, will be submitted for your consideration. In the preparation of the estimates due regard has been had to the need for continued economy with respect to the public service and public works.

I leave you now to the business of the session, with full confidence that you will faithfully discharge your duties and responsibilities in the best interests of the general welfare and progress of the province. And I pray that Divine Providence will guide and bless your work.

## KNOW HIS PART

The general was walking down the street when he was stopped by a beggar.  
"Don't refuse a trifle," said the latter; "I'm an old soldier."  
"An old soldier, eh?" replied the general. "Then I'll give you a test." "Shun. Eyes right. Eyes front. Stand at ease. Now, what comes next?"  
"Present arms," retorted the beggar. "—Evening Times-Globe.

# WHEAT POURING THROUGH SOUTH ROUTE TO PACIFIC COAST—TIE UP ON MAIN LINE EMPHASIZING UTILITY OF CROW'S NEST ROUTE

Alberta wheat is pouring into Vancouver via the Crow's Nest Pass, Spokane and thence to the Pacific terminal.

The Board of Grain Commissioners has established temporarily a greater application of the Canadian Pacific Railway for a charter for a railway route around the south end of Kootenay Lake, to cost \$15,000,000.

This announcement is taken here as applying the reason for the recent application of the Canadian Pacific Railway for a charter for a railway route around the south end of Kootenay Lake, to cost \$15,000,000.

The C. P. R. can no longer remain dependent upon one freight route from the prairies to the Pacific grain terminals is indicated, and the development of a southern through freight route over the low grade Crow's Nest Pass is considered a natural move.

Traffic Problem  
An official of the wheat pool told the Herald today that never at any time during the past six months has the pool's elevator capacity at Vancouver been full. More wheat could have been handled than was delivered. With further development of elevator terminal capacity at Vancouver the problem will be to get the wheat over the mountains as fast as it is offered, and in this a new southern route will be necessary.

At the time of the bridge week at Revelstoke there were 70 cars of wheat between Calgary and Revelstoke, and this was re-routed back through Calgary and Macleod and thence west via the Crow and Spokane.

That the development of a through southern freight route will bring about the construction of an interior storage elevator at Lethbridge is the belief in local Board of Trade circles, and the agitation to that end is being kept alive.

## STAVELY TRIMS GRANUM 2-1

A rather slim crowd due to the very cold weather saw Stavely romp home to victory at the Stavely rink Tuesday night January 29th over Granum. The score was 2-1. Anderson scored for Stavely in the second and Derechie in the third, while Ross managed to annex the one and only counter for the visitors. It was a good, clean game with both teams working hard. The game was played in 25 below weather.

## IMAGINATION

Little Leslie: "May I pretend that we've got another little boy having tea with us?"  
Mother: "Yes, if you like."  
Well, I think he'd like another piece of cake."—Answers.

Spring is that middle season when the butter is too thin for a knife and too thick for a spoon.

The man who hates all members of another race usually is a poor specimen of his own.

# LIQUOR BOARD PROFITS IN 1928 TWO MILLIONS, SAYS LYMBURN

Edmonton, Feb. 1.—A profit of \$2,038,622.53 was realized by the Alberta Liquor Control Board during the 12 months period year ending December 31, 1927, according to an annual report of the board tabled in the legislature by Hon. J. F. Lymburn, attorney-general, Friday.

The report shows an increase of \$235,065.18 in the liquor profits of the calendar year 1927 over the calendar year 1926, when the profit amounted to \$1,803,552.55. For the three months of 1928 covered in the report, January 1 to March 31, the profit was \$523,886.82, the total for the 15-month period from Jan. 1 1927, to March 31, 1928, being \$2,562,508.35.

In common with all other reports tabled this session, the period covered in the new fiscal year adopted by the government ending March 31 so this is the first year of the change. Figures of comparison appear somewhat out of date, but in future reports will be given for the actual fiscal year.

Since it is paid direct to the provincial treasury, revenue from the sale of liquor permits is not included in the report. For the year 1927 this was \$147,344.75, compared with \$131,127.75 for 1926. For the first three months of 1928 the permit revenue was \$75,584.75.

## Profit By Cities

Lethbridge liquor vendors' stores made a profit of \$152,390.57 for the 15-month period. Calgary made a profit of \$658,250.24, compared with \$549,489.82 profit in the two Edmonton stores. Other vendors' stores made profits as follows: Camrose, \$60,722.94; Banff, \$58,385.02; Medicine Hat, \$55,941.06; Red Deer, \$54,122.56; Hanna, \$41,020.07; Edson, \$38,902.32; Wetaskiwin, \$35,062.88; Grande Prairie, \$34,569.49; Macleod, \$31,664.13.

# STAVELY LOSES TO GRANUM 4-1 IN FOOTHILLS CONTEST

Stavely hockeyists played the local boys at Granum Thursday night last in a Foothills league game and were defeated by a score of 4 to 1. Granum was in good form and scores were made by Ackroyd, McKinnon, Ross and Bayley. Stavely was saved from a whitewash by Graham, who notched the visitor's only tally in the second period.

The weather was very cold and poor crowd attended. The game was very good, but snow interfered with the speed of the teams. Allan in goal for the visitors, played a fine game, but the outstanding man on the Stavely line was Graham. Ackroyd, Hart, Ross and McKinnon were the local stars. The game was refereed by J. Woodley of Stavely.

Line-ups  
Granum—Stubbert, goal; Ross, McKinnon, defense; Hoffman, Orton, Hart, forwards; Robinson, Bayley, Ackroyd, subs.  
Stavely—Allan, goal; Damron, Derechie, defense; Anderson, Graham, Bouzany, forwards; Malchow, Smith Haines, subs.

Granum has now played 17 games, won 12, lost four and tied one.

No wonder the clinging-vine-type is disappearing. Who ever heard of a vine clinging to a pill?

# CAPITAL GOSSIP AND PROVINCIAL NEWS

## Provincial Legislative Session Opens

Formal opening of the third session of the Sixth Legislature of Alberta took place on Thursday afternoon, January 31st. The Speech from the Throne read by His Honour Lieutenant Governor Erbert reviewed the satisfactory progress in many lines of activity made by the province during the past year and referred to a number of important questions on which legislation will be introduced at the present session. The personnel of the legislature is unchanged from that of last year with the exception of the addition of Hector Lang, newly elected liberal member from Medicine Hat.

In view of the numerous important questions to be considered it is announced that evening sittings will be commenced at an earlier date than usual in order that the session may not be unduly prolonged. This has been made possible by the change in the end of the fiscal year and the fact that the budget is now available for consideration at an earlier date in the session than in previous years.

## Marked Increase in Coal Production

Coal production in Alberta in 1928 reached a new high level when 7,250,000 tons were mined throughout the province, according to figures recently announced by the Mines Branch. Good success is attending the campaign to popularize Alberta coal on the Ontario market and some 30,000 tons have already been shipped east under the \$6.75 freight rate which has been in effect since January 15th. This coal is being well distributed in Ontario and a large number of repeat orders have been received from dealers who state that the Alberta product is in good demand. An extensive advertising campaign is being carried on by Alberta coal operators through the Trade Commissioner's Office in Toronto, and it is expected that this market will be still further extended.

## To Form Coarse Grains Pool

Announcement is made from the head office of the Alberta Wheat Pool in Calgary that the directors of this organization have definitely decided to proceed with the formation of a Coarse Grains pool and that this will be in operation in time to handle the 1929 crop. This development, it is stated, will not only state any new selling organization as the coarse grains will be handled through the central selling agency of the Pool. It is pointed out that only members of the wheat pool will be eligible to participate in the Coarse Grains organization. While no definite statement is made, it is probable that cats and barley will be handled for pool members under the new arrangement.

## Provincial Savings Certificates Popular

That Alberta Provincial Savings Certificates are recognized as a sound investment is indicated by the fact that sales during 1928 reached a total of \$815,960 over and above all withdrawals. The net purchases during the year were more than double those of 1927. A report for the year by the Treasury Department places the total amount of outstanding savings certificates at \$11,264,946.

## GRANUM DEFEATS MACLEOD IN ROUGH AND TUMBLE GAME

A Foothills League hockey game between Granum and Macleod was played on the Macleod rink Monday night with the visitors coming from behind to defeat the locals with a score of 6-4.

The first period started off with a bang, Robertson of Granum finding the local net immediately after the face-off. Macleod retaliated with a nice solo rush, stick handling through the entire Granum team. A few minutes later Townsend balanced the Granum net for another courier on a pass from Macleod. Macleod was going good this period and looked as though they had Granum defeated. The boys showed a tendency to mix it a little and feeling was commencing to run high.

In the second period the boys had apparently been dressed down by their respective managers and played a little cleaner. The scoring in this period was opened by Dowson, who scored single handed, this giving Macleod a two goal lead. Huffman and Bailey then came to the aid of their team and each made a counter thus tying the score.

Macleod opened the scoring in the third period taking a pass from Townsend who was in a mix-up behind the Granum goal. A minute later Ross of Granum evened the score, followed shortly by Huffman on a pass from McKinnon.

The fourth period showed only one tally, Bailey making a nice solo rush to score.

Swinerton, Macleod's junior goalie, deserves a big hand for the way he tended the net, this being his first game with the seniors and he certainly did his share, making some nice saves. With a few more games under his belt he is going to be hard to beat.

The line-up was:  
Granum—Goal, Stubbert; defense, Huffman and Orton; forwards, McKinnon, Ross, Robinson, Bailey.  
Macleod—Goal, Swinerton; defense, Dowson, W. Hamilton; forwards, Townsend, McLeod, McDonald; subs, Graham, Smith, Hamilton, Dillingham. Referee, N. Kirk, Macleod.

## THIS MIGHT HAPPEN

The Maid (at the telephone): "Oh, mum, do come home. I've mixed up the terminuses. The radio is all covered with frost and the electric refrigerator is singing 'constantly'."—Liverpool Express.

# MACLEOD DEFEATS STAVELY 5-4, IN ONE OF THE FASTEST GAMES OF THE SEASON

A Foothills League hockey game was played between Macleod and Stavely on Stavely ice on Tuesday night last, with Macleod taking the big end of a five-four score.

Stavely opened the scoring when Mark Jenkins put a fast one past Swinerton. McDonald and McLeod then showed the fans a nice display of combination, with McDonald bulging the weaving on a pass from McLeod. Then Dillingham and McLeod combined for the third goal, Dillingham scoring on his own rebound. Stavely tried hard but Swinerton proved to match with them.

The second period opened with a bang, Allan Graham beating Swinerton with a tricky shot. A few minutes later S. McDonald scored on a pass from Dillingham. Derechie evened the score shortly before the close of the second stanza.

In the third period Bosaine put the home team one up by scoring on Mark Jenkins' rebound. Macleod evened things up on a pass from Dillingham. Play then speeded up with both teams trying hard to break the tie. With one minute to go Dillingham scored from a mix-up in front of the Stavely goal.

## Line-up:

Macleod—Goal, Swinerton; defense, McDonald and Dowson; forwards, McLeod, Hamilton, Dillingham, Graham, Smith.  
Stavely—Goal, Allan; defense, M. Jenkins and Derechie; forwards, A. Graham, Bosaine, Anderson, Damron, Malchow, Schade.

# ALBERTA HENS NEARLY LAID GOLDEN EGGS

Edmonton, Jan. 31.—Alberta hens almost laid golden eggs last year for they contributed to the provincial farm wealth in eggs alone no less than \$7,892,500. And in addition there was a total of \$2,014,500 for poultry marketed of all kinds.

The figures of the poultry industry in Alberta have just been compiled for 1928 and show that there was an increase in the number of birds from 5,853,000 in 1927 to 6,213,706, with a corresponding increase in value from \$4,920,100 to \$4,065,398. Turkeys, geese and ducks are included in this total, but the bulk of the poultry population is made up of hens, of which there are 5,456,430, valued at \$4,395,504. Eggs sold during the year at an average price of 28 cents per dozen. The markets were both local and Eastern Canadian. It was a banner year for the poultry industry of the province and more attention was given to production and marketing than ever before. The department of agriculture reports that the industry has increased 150 per cent. in the past ten years and is still growing.

## ACCIDENTS AND DRIVERS

Very few traffic accidents are caused by defective mechanisms. Most of them are due to the driver. This is brought out in a survey by the National Safety Council of United States, just made public. The survey shows that only about 10 per cent of all traffic accidents can be blamed on physical and mechanical causes, including defects in the road or in the vehicle. The rest are laid at the door of the motorist himself.

Automobiles have improved marvelously in the last decade or so, but the driver has remained stationary. The modern automobile is a model of mechanical perfection. It will travel fast as anybody wants it to. It will stop quickly, if handed right. Its intricate parts seldom give way under strain.

But the driver is right where he always was. Until he learns caution, common sense and consideration for the rights of others, we will continue to have a disgracefully high list of traffic casualties.

## NOT FOR HIM

"Don't you long for a holiday in some quiet, restful spot, away from all these people, this constantly moving traffic, these blazing lights, the tooting motor horns?"  
"No, that's not my idea of a holiday; you see, I am a lighthouse-keeper."

## PIANO PIANISSIMO

This is attributed to Will Rogers. When asked to give a testimonial to a certain make of piano, he wrote: "Dear sirs, I guess your pianos are the best I ever leaned against."

You can tell, just by looking at a man, whether he always laughs at the boss' jokes.

A good executive is one who has wit enough to hire good men to run the job.

# COMING EVENTS

## FORESHADOWED

AN OPPORTUNITY TO MAKE \$5.00 OR \$10.00

Watch the Empress Theatre advertisement on the front page of The Times in which once or twice monthly will appear a notice of the date on which the clipped advertisement will be good for one admission to a specified current picture—you buy one ticket and it, with the clipped ad admits two. 12 of these admissions at 45c amounts to \$5.40 a year—24 amounts to \$10.80. This is a nice saving in a year for film fans, and it will pay the public to take the Empress advertisement and benefit thereby.

# HOCKEY CLUB DANCE SATURDAY NIGHT

Hockey Club Dance in Elks' Hall, Macleod, Saturday night. Gents 50c. Ladies 50c.

## MACLEOD BOARD OF TRADE

A special general meeting of the members and all interested in the Board of Trade, will be held in the Rest Room, on Monday, February 11th at 8 o'clock. Important business will come before the meeting. R. B. Sutherland, President. J. J. E. Gardiner, Secretary.

## TRACTOR SCHOOL

A lecture on the Massey-Harris Wallis Tractor will be given in the Town Hall, Macleod, Wednesday, February 13th, starting 10:30 a. m. J. Kirkland, local agent—Phone 22.

## The C. G. I. T. Girls of the Anglican Church will hold a Valentine Tea on Saturday, February 9th, in the Town Hall. Proceeds will be for the summer camp fund. 50-1t

The Ladies of the O. O. R. P. will hold a Card Party and Dance in the Elks' Hall, Macleod on Monday, February 11th. Good prizes, cats and music. Starts 8:30. Admission 50c.

MACLEOD

the Bank of England has followed the lead of the government.

It has had plenty of money available for financial manipulation, little for the operations of the engineer and the scientific industrialist.

Lord Beaverbrook and his able editor, Beverly Baxter, were the first to break tradition in the woeing of industry and production. To the amazement of their readers, they began, recently, to devote their editorial attention, not to the problems of empire, but to the problems of producing more and better goods, more and better corn and cheaper and better machinery.

And, partly as a result of their campaign, England is becoming production-conscious. Englishmen are turning their attention from the politics of industry to the mechanics and economics of industry.

That the staid English banking system should follow this lead is surprisingly encouraging.

It may mean the beginning of a period in which a realization of the economics of industry, followed by mass production, will pull England out of the industrial slough into which she has fallen.

## ADJECTIVES

If you plan to write anything, from a newspaper article to a novel, you would do well to consider remarks made by the late Senator Albert J. Beveridge, whose recent "Abraham Lincoln" is hailed as a masterpiece of biography.

Beveridge, pointing out that he used as few adjectives as possible, said:

"Adjectives are like emergency

medicine, and must be given sparingly and seldom, like strychnine and other powerful stimulants. Adjectives often employed mean little or nothing. There are drugs that blur vision in the reader and save the writer the toil of description. Great writers are not victims of the adjective habit."

"Plain, unadorned writing" is always the most forceful. This is a good thing for everyone to remember, from cub reporter to historian.

## THE USE OF LEISURE

The use of machinery and shorter working hours have given us more leisure than has ever fallen to the lot of mankind, and the opportunities for its enjoyment are greater than our forefathers could have dreamed of, but the employment of this leisure is a matter of discussion.

Easy means of transportation, and the multiplication of the forms of amusement keep people constantly on the move, and the tendency is to cram the vacant hours to their limit with pleasure and recreation. Even so, it must be admitted that we spend our leisure in a much more rational way than did our ancestors. Motors and sports of all kinds take the people into the country and the open air, and these are nature's restoratives to the mind and body alike.

On the other hand, to consume our leisure in a restless chase after trifles is an abominable misuse of time, and is also a confession that the way of escape from boredom is to be found only in external things—a confession of the poverty of the resources that lie within us, or our neglect to cultivate them. To be afflicted with boredom is to admit that one's own company is disagreeable or unsatisfying, and to forestall this deplorable contingency the cultivation of the mind is essential.

By the right use of leisure it is possible to lay up an inexhaustible treasure which will ensure to its possessor sources of joy and delight that are independent of the aimless whims and fancies of the passing moments.

Necessity and custom determine the course of our working hours, but leisure is our own to be disposed of as we please. A well-balanced life requires the development of mind and body in harmonious proportions, for the attainment of which no universal or ready-made rules have ever been devised; the use of leisure is a matter to be settled by individual initiative and resolution, and may become either a blessing or a curse as we choose to make it.

## CORRESPONDENCE

Seemly discussion of matters of public interest is invited under the above heading. As an earnest of good faith and to insure publication, all communications to the editor must be signed by the contributor (nom de plume signature for publication if so desired). The editor of The Times is not responsible for opinions expressed or statements made under above heading; neither does he necessarily endorse or condemn such opinions or statements.

RATEPAYER IS PLEASED WITH ADMINISTRATION OF CIVIC AFFAIRS BY MACLEOD MAYOR AND COUNCIL

To the Editor—  
I was very glad to see that the citizens assembled at the special meeting passed a resolution of thanks to the Mayor and Council for the good work they have done for the town.

When we come to think of the fact that the debt of the town is in such satisfactory shape, and that important improvements have been accomplished, and notwithstanding all this, that the taxes and electric light are so much lower, I believe the least that our ratepayers can do is to vote next Monday for the return of the three councillors (Messrs. Swinerton, Stevens and Day) who have been, with the Mayor and the rest of the council, responsible for the good shape Macleod's civic affairs are in. Send them back for a further term of good work.

Ratepayer.

## A RATEPAYER'S TRIBUTE

To the Editor:  
I take this opportunity of congratulating the Mayor and Council both collectively and individually for the more than able manner in which they have conducted the affairs of the town. It is quite evident by the reduction in the taxes, by the excellent balance showing on the water accounts, the wonderful results of financial success from the electric department that the boat of prosperity for Macleod has been safely piloted from stormy seas into calm and tranquil waters. I feel it is my duty to ask all the ratepayers of Macleod to see that these able citizens who have proven their worth both in their own and the town's business should be left in charge of the town's affairs and I feel that I am voicing the sentiments of the majority of the ratepayers when I say we'll put them back, and carry on with their good work. Mayor McDonald, Councillors McLeod, Swinerton, Day, Hoodless, Stevens and Tweed we admire you and appreciate very highly the work, labor and endeavors that you have put forward on behalf of Macleod. Thank you.

C. H. GILROY.

## REGULAR MEETING MACLEOD TOWN COUNCIL

The monthly meeting of the Macleod Town Council was held in the Council chamber Monday night. There were present Mayor J. W. McDonald; Councillors W. A. Day, C. W. Stevens, A. McLeod, J. Swinerton. This being the last meeting of the 1928 council a considerable amount of business was cleaned up. Chief of Police Pringle presented his official report for the month of January, which showed six cases before the court. The report was filed. The sale of quite a number of lots and houses were put through,

Good  
**Blue Ribbon**  
RED LABEL  
TEA

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Among them being the old barn on 25th Street (known as the Skelling barn) and lot was sold to Ed Green wood for \$50.00. The old Brewster house on 21st Street East was sold to H. Lile for \$150.00. Lot 10 south of 21st Street west to Curry Street, Lot 18 south of 23rd Street west to G. H. Scougall for \$100.00. Other lot deals were held over till the next meeting.

## MACLEOD ELKS INSTAL OF OFFICERS FOR ENSUING YEAR

The installation ceremonies of the elected officers of the B. P. O. Elk Lodge, No. 123, Macleod, took place last night in the Elks' Hall. There was a large number of members present when Past Exalted Ruler W. O. Hoodless, assisted by Past Exalted Ruler C. E. Tweed, installed the following to their respective chairs: Past Exalted Ruler Frank P. Walehe, Exalted Ruler D. W. Davis, Leading Knight V. R. Baker, Loyal Knight J. E. Ramsbottom, Lecturing Knight C. K. Underwood, Esquire N. S. Kirk, Chaplin R. F. Walshe, Secretary E. A. Hamilton, Treasurer Cliff Clarke, Inner Guard R. W. Hamilton, Tyler C. G. Hault, and Trustee N. Grier.

## A TEST OF THREE BREEDS OF SHEEP

A beginning in sheep raising was made at the Dominion Experimental Station at Scott, Saskatchewan in 1917 by use of 11 range ewes and a pure bred Shropshire ram. In 1920 a pure bred Cheviot ram was used on 20 grade ewes to form a foundation for a Cheviot flock. In 1921 a Rambouillet ram was secured and a similar beginning was made with this breed.

The first cross of pure blood in each case resulted in a greater improvement in breed characteristics than any succeeding cross. However at the close of the test in 1928 the young ewes resulting from several crosses of pure blood have the appearance of pure bred stock. The rams were changed every two years to avoid in-breeding and rams of high quality were used. By reason of limited accommodation each flock was reduced to 20 to 30 ewes each autumn. The ewes, inferior female lambs, and aged ewes were sold. Some of the observations made during the test were as follows—the first mentioned in each case being Shropshires, the second Cheviots, and the third Rambouillets.

Average weight of lambs at birth 8.7 pounds, 8.1 pounds, 8.6 pounds. Percentage of lambs raised to seven months of age in proportion to number of ewes 83 per cent, 89 per cent, 112 per cent. Average weight of lambs at seven months 76 pounds, 73 pounds, 79 pounds. Average weight of wool clip 7.9 pounds, 7.2 pounds, 9 pounds. Average price of wool per pound according to quality 27 cents, 26 cents, 28 cents. Average returns per head for wool \$2.07, \$1.89, \$2.52. Average dressing percentage of 10 lambs of each breed 44, 45, 47 per cent. Meat required per 100 pounds gain in a single test 438 pounds, 581 pounds, 499 pounds. This test indicated that the Rambouillet on account of its prolificacy, fair mutton qualities, and superior fleece gives promise for use as a farm flock.

The Shropshire is a good popular domestic breed but in this test ranks second to the Rambouillet in several of the important comparisons.

The Cheviot by reason of its open low grade fleece and wild nervous disposition is the least desirable of the three breeds although it furnishes an excellent mutton carcass, of lots and houses were put through,

MORALS OF YOUNGER GENERATION IN DANGER, DE-CLARES DIRECTOR—HOME IS CALLED GREATEST SOCIAL PROBLEM TODAY—RESEARCH AGENCIES AGREE "OUR DANCING DAUGHTERS" IS BASED ON REAL LIFE

What is the greatest social problem today?  
The home!

Harry Beaumont, Metro-Goldwyn-Mayer director, supplied the startling answer.

Good or bad, he believes, parental influence guides young footsteps. The home is the mould in which modern youth is cast, he declares, and the atmosphere provided by parents is that in which the children's mental attitude is formed.

In directing "Our Dancing Daughters," which is playing Monday and Tuesday at the Empress Theatre, the director has brought to the screen a cross-section of the present generation and goes behind the scenes in the family lives of three very modern young women for plot motivation.

Before filming the screen adaptation of the ultra-modern story written for Metro-Goldwyn-Mayer by Josephine Lovett, the director consulted a number of prominent social research agencies who agreed that the theme of the gripping drama of youth was based upon real life problems of the present generation.

"When a girl loses confidence in her own parents it is time to look for unfortunate consequences," Beaumont declares.

## "ROMANCE OF UNDERWORLD" HAS BEEN PRAISED WIDELY

No picture play has come to town preceded by such laudatory comments as "Romance of the Underworld," a Fox Film directed by Irving Cummings, which has its premiere locally at the Empress Theatre Friday and Saturday.

Cummings is the director who rode to phenomenal success with "Dressed to Kill." Unbelievable as it may seem, "Romance of the Underworld" is said even to exceed that production in tensility, thrills and direction as well as acting.

Mary Astor, Robert Elliott and Ben Bard are the featured players in this epic of the underworld, with Oscar Arfel and Helen Lynch in other prominent roles.

"Romance of the Underworld" will be shown with the usual excellent accompanying features.

## "VARSITY" FRIDAY AND SATURDAY

"VARSITY" is the picture to make which an entire motion picture company crossed the continent. The Hollywood motion picture troupe was introduced to real college atmosphere at Princeton university.

"VARSITY" is the picture which Princeton university faculty members and undergraduates have endorsed as being an authentic presentation of American college life.

"VARSITY" is the picture with the stellar cast, headed by Charles (Buddy) Rogers, supported by Mary Brian and Chester Conklin.

"VARSITY" is the picture picked by Paramount to launch Charles (Buddy) Rogers on his starring career.

"VARSITY" is the picture in which Chester Conklin plays, as he says in his own words, "the one real characterization in 14 years in motion pictures."

# A Two-Sided Story

Following is a letter that appeared in a Western newspaper, written by one of its readers. There is information in it for storekeepers: "Your paper is always boosting that home-town buying is the right thing, for if everybody bought away we would not have a town very long. In your editorial a week or two ago you said there would be less buying from catalogues if every merchant would advertise, because it is advertising that keeps the catalogue men going. Well, I believe that's right too, but one thing I would like to see all the local merchants do, and there are more who think the same, and that is for them to print the prices as much as they can in their advertising. And I also think that if the prices are going up they should say so and tell why, if they know. These times we all have to bite our nickles, or most of us, and we certainly don't like the idea of prices going up on staples particularly, and not a word about it till you reach the store. I am not an advertising expert, but I know what I would like to see in my local paper along that line and that is a lot of genuine information about goods and prices every week. Then we should feel better and if we were being fairly treated there would be less sending away. I hear this talked about a lot, so thought I would write you."

Mr. Merchant, tell your message to the people of this town and vicinity in "The Times"

#### MACLEOD'S MAYOR AND COUNCIL ENTERTAINED CITIZENS AT HIGHLY SUCCESSFUL SOCIAL FUNCTION

In order to celebrate the town's satisfactory financial standing, and to encourage further investment, on the part of the citizens, the mayor and council staged a gala night on Wednesday, February 30th. The town was strung with the red and gold lights (the gift of the young ladies of the Scarlet and Gold), a smoker was held in the town hall, a dance in the Hudson's Bay Hall, to all of which the entire citizenship was invited, free.

The mayor and councillors, and their wives, acted as hosts and hostesses to the crowd in the Elks' Hall, which was decorated with both town and Elk colors. The Elks donated the hall for the evening. Mr. George Parker had charge of the card program.

The Hudson's Bay hall which was very generously donated for the occasion was hung with scarlet and gold streamers, and all the lights were red and gold. Edgar's orchestra was in attendance. The lovely decorations were in the charge of Mr. Jas. Young, the popular dry goods merchant.

In the supper room the table was festooned with smilax and red and gold ribbons. Tall red candles, in low brass holders, and red carnations and tulips mixed with the red of tulips and daffodils, in a silver basket, all on a bed of scarlet and gold tulle, centred the table, which groined with the weight of many beautiful cakes donated by the ladies of Macleod. The supper was in charge of Mrs. J. W. McDonald, Mrs. W. A. Day, Mrs. J. Swanton, Mrs. A. McLeod, Mrs. C. W. Stevens and Mrs. C. E. Tweed, and was served to between five and six hundred guests at eleven o'clock.

After supper the prize winners were called to the centre of the floor, and presented with prizes. Mrs. J. Ryan won the ladies' first, a pair of pillow cases; and Geo. Mc-

Macleod Alberta

Farquhar, gentlemen's first, a shaving set, while Mrs. Crause and Geo. Pringle got the consolation.

After the distribution of the prizes, Mayor McDonald was called to the centre of the hall and the following resolution to the mayor and council was read by H. C. Winter, a member of the executive of the Board of Trade:

"To the Mayor and Councillors, of the Town of Macleod:

"We, the guests, citizens of Macleod, and surrounding district, wish to move a most hearty vote of thanks on your community spirit of inviting us to your dance and card party this evening, which is being enjoyed by all these present.

"The occasion fosters a spirit of good-will and, at the same time, may we here thank you for your loyal devotion to your duties and work so well done in looking after the affairs of the Town of Macleod for the year 1928.

"Moved, H. C. Winter,  
Sec., G. R. Davis,  
Passed."

After the reading of the resolution, the council was loudly cheered. The dance was then resumed, and "God Save the King" was played about 2:30 a. m.

#### Macleod Is Prosperous

No town in the West has suffered more from adverse circumstances (and eventually won out) than the little town of Macleod, which came into being as first far-Western head-quarters of the Mounted Police. Five years ago the town was almost hopelessly in debt. There were no new industries or buildings. Encumbered by a large hospital which ran at a deficit, schools which could scarcely be financed by the taxes of the few ratepayers, the council took over a herculean task. But as all were established citizens, they set to work to try to bring about a surplus instead of a deficit.

It took years of arduous effort on the part of the mayor and council, but on Dec. 31, the treasurer's report allowed a balance on hand of slightly over \$67,000.00, while the tax rate has been reduced by 45 per cent. and the electric light and water by approximately 25 per cent. The hospital, from being an encumbrance has emerged to be a paying institution. With the lower assessment people have purchased their own houses, and have become ratepayers. Main Street property has changed hands, and what was to be idle, vacant lots, have now become revenue-producing.

Old houses on the outskirts of the town were given to would-be taxpayers, together with a lot on which to put them, on the contract that they would be moved, renovated and modernized improved at the owners' expense. Many vacant lots in the centre of the town were thus converted into homes which bring the monthly revenue of light and water, and the yearly revenue of taxes.

#### Erect Citadel

The Salvation Army tore down an old concrete rooming house, and erected a fine citadel, with house for officers.

Two large up-to-date garages and filling stations occupy vacant corners or take the place of tumble-down buildings. Sid Baker, a veteran was given a lot at a small price on Main where he erected a new brick store. A. T. Leather, who was on the council during the first four years, and to whose enterprise and foresight, the town owes a great deal, built two new brick stores. The vacant Hudson's Bay building has been rented, and a beautiful dance hall was constructed upstairs. Couillard and Lush enlarged their place of business, and a number of new businesses have been established.

The Historical Society erected a historic cairn. The girls of the Scarlet and Gold, an up-to-date, and artistic band stand. The vacant Police Barracks was transformed into a Tourist Camp.

For the year, over eighty-five per cent. of the taxes are paid up. Ratepayers have almost doubled. The hospital is out of debt. The schools are not a heavy burden, and there is reason to expect that the taxes will be further reduced by approximately 50 per cent., and the water and light to 32 per cent. of their former rate.

Though Macleod was not free from the slight financial depression of the rest of the West, business has been more than fair, and people have prospered and experienced the contentment which comes with prosperity.

#### OBITUARY

#### DEATH OF CHESTER ARTHUR, INDIAN AGENT, BROCKET

Chester Arthur, 51 years, Peigan Indian agent here, passed away just before 4 o'clock Friday morning, Feb. 1st. Death was due to cerebro spinal meningitis following an attack of flu which settled in the ear. Tuesday evening an operation was performed on Mr. Arthur's ear, but this gave him only temporary relief. He made a heroic fight for life but finally succumbed to the dread disease.

Mr. Arthur is survived by his widow, a son, Clive, 14, and a son and daughter by a previous marriage. The latter children live in Northern Alberta. A sister-in-law, Mrs. Moses, lives at Fernie. Born in Nova Scotia, Mr. Arthur came west in the late eighties. He rail-roaded out of Winnipeg for a time, taught school near Regina, ranched in the Medicine Hat district and later became assistant Indian agent on the Blood reserve, later coming to Brocket as Indian agent.

He was a man of excellent character and highly esteemed. During his seven years as agent here many improvements were made, including the building of several modern institutions to meet the requirements of the Indian people under his care. He was well liked by the tribesmen and enjoyed their confidence. Mr. Arthur was high in Masonic circles, being a member of the Pincher Creek lodge.

#### Burial at Pincher Creek

About twenty members of the Masonic order of the Macleod lodge were present at the funeral Sunday.

afternoon, February 3rd, at Brocket and Pincher Creek of C. A. Arthur, Indian agent of the Peigan reserve. The late Mr. Arthur was a member of the chapter lodge at Macleod and of the blue lodge at Pincher Creek. He was high up in the order, being a past grand superintendent of the Royal Arch Masons.

There were over seventy members of the order present from the two lodges, and the order had full charge of the funeral and conducted the service at the cemetery with full Masonic honors. The deceased brother was very highly respected by the members of the lodge in Mac-

Hon. JAMES MALCOLM, Minister

#### The Empire Opportunity in Manufactured Goods

Of 39 groups of manufactured goods Canada sells the Empire to the total of \$178,000,000. It is to be remembered that the Empire imports from all countries these goods to the amount of \$2,571,000,000. The British Empire presents a tremendous opportunity for the development of export on these commodities.

ROLL down the map of the world. Follow the British Empire red through the continents and across the seas. There you see beckoning markets for Canada—where fewer trade restrictions intervene, where British tradition is appreciated, where Canada is known. There we can sell. There we can also buy.

Canada is buying more Empire goods than ever before—things we cannot grow or make—raw materials for our factories. Since 1922 Canada's imports from Empire countries have increased 67 per cent. Last year we bought Empire goods to the value of \$250,000,000.

And what is Canada selling the Empire? Last year we shipped \$500,000,000 worth of our products to other British lands, an increase of 44.3 per cent. in six years.

The various parts of the Empire want more Canadian goods. A demand exists among them for Canadian manufactures, or for the products of Canadian lands or waters. But we must see that our exports are maintained at a rigid standard, that they are packed as consumers desire, and that our prices are right.

To encourage this growing Empire trade, eleven of Canada's twenty-four Trade Commissioners abroad, are working in Empire centres. They are familiar with the demands of the people among whom they live. Their services and the information they gather are at the command of any Canadian producer or exporter. To get into touch with Trade Commissioners, write the Commercial Intelligence Service, Department of Trade and Commerce, Ottawa.

When you buy Empire goods, you do a part in making possible greater Canadian exports to these sister countries. Where we sell, we must also buy.

#### HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—WHAT DOES IT MEAN?

This article is written because of the numerous enquiries received by the Health Service, asking the meaning and significance of certain tests. Our correspondents ask the meaning of a high blood pressure, a positive or a negative Wassermann test, or concerning one or other of the numerous tests which are made. During the past years, as a result of research in medicine and in the sciences, certain tests have been made available for physicians. These tests are most valuable aids in deciding the nature of disease, but they are nothing more than aids. They are, as it were, on one symptom. A physician does not make a diagnosis on one symptom only and, for the same reason, he does not make his diagnosis upon the result of one test.

It seems necessary to point this out, as so many people seem to think that the diagnosis of certain diseases is now made in a mechanical manner, by subjecting the case to a series of tests which label the individual as suffering or as free from certain diseases. We are not minimizing in any way the value of these tests; we merely point out their limitations. The results must be weighed along with other symptoms by the physician in charge of the case. The significance

of symptoms varies, and each case must be considered separately.

In using modern tests, the physician brings all available means to his aid so that he may make a correct diagnosis, a correct diagnosis being needed not merely to relieve symptoms, but to correct or remove the cause of the trouble.

An untrained person cannot understand the significance of these tests any more than he can understand the meaning of the different sounds the physician hears through his stethoscope when he applies it to the chest of the person he is examining. It is not because these are secret or mysterious, but simply that they require, for their interpretation, certain definite scientific knowledge, training and experience. Questions, concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

#### THE INVITATION

There was standing room only on the street car, when a washerwoman who was delivering a bundle of clothes, heard a small voice say "Please take my seat."

She turned to accept and found that the words were spoken by a little boy of about four years of age who was sitting on his father's lap.

## Full-O-Pep

We have just received a very complete shipment in the various sizes of Full-O-Pep Chick Starter, the most popular of all chick feeds on the market today. The Quaker people, who make this Chick Food, have a course by mail, extending over a year, on Poultry Raising, embracing lessons on egg production, incubation, brooding, chick feeding, chicken fattening, preparing for market, etc., which is free to anyone wishing to avail himself of it. If you should care to take this course please register your name with us, and we shall see that you are enrolled.

### For Rural Schools

We have received a shipment of Dustbane Sweeping Compound which we are selling at \$4.50 per drum. This sweeping compound eliminates the dust nuisance, is a labor saver and an aid to sanitation and healthfulness in the School room. A drum will last for months.

## THE WHITE HALL

(OPERATING THE CHILD'S SAVING PLAN)

### LOCAL AND PERSONAL NEWS

M. Donahue returned on Saturday from a trip to the Pacific Coast.

T. F. Dixon, of Lethbridge, was a Macleod visitor on Saturday last.

Mr. C. G. Hoult is spending the week at Banff attending the winter carnival.

Born—To Mr. and Mrs. Harry Benson, at Macleod Hospital, on Friday, January 29th, a son.

Miss Olive Young returned on Friday of last week from an extended visit with friends at Crossfield, Alberta.

Mrs. H. C. Dillingham, of Oakland, California, was a guest of Mr. and Mrs. S. Dillingham between trains Saturday.

Mr. and Mrs. W. Ulrich of Champion announce the engagement of their daughter, Miss May Ulrich, to Mr. John Dillingham.

The Rev. F. Randall Powell, Rector of Christ Church Macleod, is attending the meeting of the Synod of Calgary Diocese, in Calgary, this week.

Mrs. P. J. Doyle, of south of Macleod, underwent an operation for appendicitis at Macleod General Hospital on Friday morning of last week. Mrs. Doyle is progressing favorably.

M. L. Gaetz, of Calgary and Vancouver, was a business visitor in Macleod on Saturday. Mr. Gaetz represents the Canadian Hatcheries Ltd., of Vancouver, and while in Macleod he appointed R. J. E. Gardiner as the agent of the Company to take orders for Baby Chicks, during the hatching season.

J. Swinerton returned Monday noon from Edmonton with his son Albert, who has been undergoing surgical treatment at Edmonton on account of his injured leg. Mrs. Swinerton and Albert left on Tuesday night for Rochester, Minn., where Albert will receive surgical attention at the Mayo Brothers institution in that city.

The Stewart Brothers got a rousing reception at the curling rink on their return from their successful trip to the Nanton bonspiel. To gain the grand aggregate and two cups, the Stewarts and the High River with the accompanying prizes, was no small honor, especially to win so much in face of the keen competition from the large number of first class rinks that were competing. The Macleod club feel quite proud that the Stewart boys have once more demonstrated their abilities as curlers, thus bringing prestige to the club. The rink consisted of Bob Hamilton, lead; Geo. Stewart,

second; Gordon Stewart, third, and Orval Stewart, skip.

Lawrence Dixon, of Blairmore, was a visitor at Macleod on Sunday last.

Mr. and Mrs. Mark Thompson, of Beaver Creek, were visitors in Macleod on Monday.

Mrs. R. Campbell of Lethbridge was a visitor in Macleod attending the Trainmen's Ball.

Rob Clement returned on Tuesday from Vancouver, where he has been visiting for the past few weeks.

The Hon. A. J. McLean was a business visitor in town on Wednesday.

Mrs. Donovan Franklin left last week-end for Palo Alto, California, to spend the remainder of the winter.

Mrs. J. Harvey of Cranbrook was a visitor in Macleod on Wednesday coming specially to attend the Trainmen's Ball.

J. D. Matheson, K. C., who was confined to the house all last week with an attack of the flu, is back to his office this week.

Mrs. F. J. Sandgathe of Granum was registered at the Queens Hotel on Wednesday, taking in the Trainmen's Ball Wednesday night.

Eddie Natche of Ewelme is attending the School Trustees' Convention at Lethbridge this week as the representative of the Ewelme School District.

Mr. and Mrs. C. J. Nash, of Toronto, were in Macleod on Monday and Tuesday. Mr. Nash is representative of the R. L. Lovell Co., Toronto, and was looking after the interests of his firm.

Commissioner A. C. L. Adams of the Red Cross, Edmonton, accompanied by G. A. Gunn of Calgary, organizer for Alberta, are visiting Macleod this week in the interests of the Red Cross work, especially among the school children.

O. L. P. Franklin and Granville Davis, of London; and Jeanette Christine were guests at the Queen's Hotel, during their stay in Macleod, while giving their Concert Entertainment in the United Church, under the auspices of the Church Choir.

On Tuesday evening next the United Church Brotherhood will entertain to lunch the Church Board and their wives respectively. Dr. Brayton will speak on Surgery and its place in the science of human healing. The Board will hold a session following the luncheon.

WINNIEG FREE PRESS AND LETHBRIDGE HERALD EDITORIAL COMMENT CIVIC ADMINISTRATION BY MACLEOD'S MAYOR AND COUNCIL.

In a recent issue of the Winnipeg Free Press the following was published in the editorial column: "Not many years ago the town of Macleod in Southern Alberta, hard hit by agricultural depression and stricken by drought, was in a bad way. The improved position of the town today is remarkable proof of the West's recuperative power and of the spirit of self-help which has always been so evident on the prairies."

"In five years' time the taxes of Macleod have been reduced 45 per cent. The town has a bank account of \$27,000, as well as \$40,000 invested in savings certificates. Improvements are being effected out of current revenue. A policy of centralization has been carried out which has gathered the population within a smaller area, and placed much valuable property on the tax rolls again. Waste of water and electric light has been largely stopped."

MACLEOD, ALTA.

Macleod has been favored by two good crop years, but the aggressive way in which it has tackled its problems deserves high praise.

The Lethbridge Herald of Tuesday, February 5th also makes the following favorable comment: "Macleod has handled its affairs wisely and efficiently, and today it is in a happier and more hopeful position than it has been for many years."

The above comments speak in no uncertain terms of the able manner in which Macleod's mayor and council have handled the town's affairs for the past several years—a just and remarkably efficient stewardship—and so obviously satisfactory that doubtless every ratepayer in Macleod is keenly appreciative of the successes attained in the administration of Macleod's civic affairs.

So often "tolerance" is just a fellow-feeling for those whose views are similar to their own.

#### MUNICIPAL NOMINATIONS AT MACLEOD

The nominations for mayor, councillors and school trustees for the town of Macleod passed off very quietly on Monday, February 4th in the town hall.

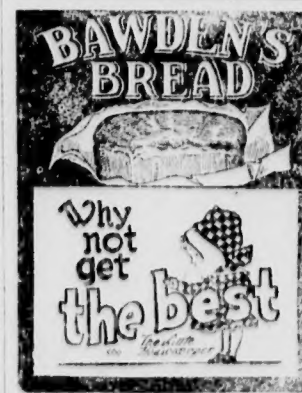

Mayor J. W. McDonald, K. C., was returned by acclamation. His nomination was signed by A. T. Leather, O. F. Fensel, D. J. Grier, Jas. Young and about twenty of the business men of the town. For councillors, John Swinerton was nominated by W. G. Andrews and G. H. Scoullall; C. W. Stevens, by W. K. Macleod and J. E. Donoy; W. A. Day, by Jas. Young and Alex. McLeod; Wm. Whitworth, by D. W. Davis and D. R. Carse; D. W. Davis, by A. T. Leather and W. O. Hordless. The first three were the retiring councillors. There are three vacancies, and W. Whitworth and D. W. Davis are candidates for the first time.

For public school trustees, J. W. McDonald was nominated by Geo. Pearson and R. D. McNay; W. A. Day, by O. F. Fensel and J. Swinerton; C. E. Tweed, by R. Cunningham and C. W. Stevens. All three were retiring trustees and are again returned by acclamation. For separate school trustees, M. Maryby was nominated by Margaret Stapleton and Kate Jordan; R. McDonald, by M. L. Jordan and J. J. Burke; Leo Noel, by Kate Jordan and J. J. Burke. All were returned by acclamation.

The only contest is for town councillors and the election will take place on Monday, Feb. 11, in the town hall. E. Forster Brown is the returning officer.
